Institute of Law was established to impart legal education through B.A.LL.B (Hons.) Integrated course in 2001. Since 2006 eight batches have successfully passed out. Some of our students are serving in the Judiciary while some others are highly placed in Public and Private organizations. A large number of them are practising in courts. We are highly proud of great achievements of our Alumni. We wish to come together again to refresh our sweet memories. With this solemn objective we have decided to create an Alumni Association. We request our old students to come forward and cooperate with us to achieve the desired goal.
