Teaching Methodologies
The Core Module Syllabus for Environmental Studies includes class room teaching and Field Work. The syllabus divided into eight units covering 50 lectures. The first seven unit will cover 45 lectures which are class room based to enhance knowledge skills mid attitude to environment. Unit eight is based on field activities which will be covered in five lecture hours and would provide students first hand knowledge on various local would environmental aspects.
Field experience is one of the most effective learning to for environmental concerns. This moves out of the scope of text book mode of teaching into realm of real learning in the field where the teacher morely acts as a catalyst to interpret what student observes or discovers in his/ her environment.
Fields are as essential as class work and form an irreplaceable synergistic tool in the entire learning process.
Course material provided by UGC for class room teaching and field activities be utilized.
The universities/Colleges can also draw upon expertise of outside resource persons for teaching purposes. Environmental Core module shall be integrated into the teaching programmes of all undergraduate courses.
