 (Hybrid Mode)

Organised by  
**Department of Economics**  
**Kurukshetra University, Kurukshetra**

Academic support by  
**Indian Economic Association (IEA)**

## About Kurukshetra University

Founded in 1956 as a Sanskrit University, Kurukshetra University has evolved into a cornerstone of higher education in Haryana, offering multidisciplinary and interdisciplinary courses. Nestled across 473 acres, the university's ten faculties and 49 departments and institutes chart new pathways in higher education in both Haryana and the entire nation. Renowned for its exceptional teaching quality, robust curriculum, influential alumni, and cutting-edge research, the University stands as a beacon of academic distinction. As a testament to its excellence, NAAC conferred upon Kurukshetra University an esteemed A-plus-plus (A++) grade with a remarkable CGPA of 3.56. This accolade propels Kurukshetra University into the ranks of the nation's premier institutions and marks it as the first among Haryana's 21 Government Universities to achieve this prestigious rating, marking a historic milestone in its journey.

The university offers research-based and professional courses spanning Arts, Science, Commerce, Pharmacy, Engineering, and Law faculties. Emphasizing Learning Outcome Based Curriculum (LOCF), the university aims to equip students with comprehensive knowledge, skills, and values, addressing contemporary issues such as gender equality, social justice, and environmental sustainability.

Kurukshetra University,  
Kurukshetra

## About the Department

The Department of Economics established in 1961, is one of the oldest Departments of the Kurukshetra University. Professor Vikas Mishra, a student of Nobel Laureate, Sir Professor W. Arthur Lewis and who did his M.A. from Manchester and Ph.D. from London School of Economics, was the founder Head of the Department. Initially M.A. and Ph.D. courses were started in the Department but later on M.Phil. and M.A.B.E. courses were also introduced. At present, the department offers courses in M.A., M.A.B.E and Ph.D. in Economics. It attracts a large number of students at the Post-Graduate level including foreign students. The teaching programs in the Department are focused on proper blending of 'quality' and 'relevance'. Many of its alumni have distinguished themselves in both academic and administrative spheres across the country and the world—a small testimony, perhaps to the excellence of training that we have managed to give them.

## About the seminar

As India approaches its centenary year of independence in 2047, a critical question arises: what kind of nation does it aspire to be? Vision 2047 seeks to answer this by proposing a roadmap for achieving a future India that is inclusive, prosperous, sustainable, and a global leader. Today India is at transformative crossroads, grappling with both formidable challenges and unprecedented opportunities. The Sustainable Development Goals (SDGs), a set of 17 global objectives adopted by 193 United Nations member states, offer a roadmap for addressing these challenges and harnessing the opportunities to achieve sustainable and inclusive development by 2030. India's alignment with these SDGs is not merely a global commitment but a national imperative that resonates with its development aspirations and ethos.

India's unique socio-economic fabric, characterized by its vast diversity, rapid urbanization, and complex developmental challenges, necessitates a nuanced approach to aligning with the SDGs. The country's development journey, marked by significant strides in areas such as healthcare, education, and economic growth, has also been punctuated by persistent challenges related to poverty, inequality, and environmental degradation. Vision 2047 provides an opportune moment to reflect on this journey, recalibrate priorities, and chart a course that aligns India's national development objectives with the global SDGs.

At the heart of this alignment lies the recognition of India's development challenges and priorities. India's commitment to eradicate poverty, ensure quality education and healthcare for all, promote gender equality, and foster sustainable economic growth resonates with several SDGs. By 2047, Vision 2047 aspires to see a significant reduction in poverty and hunger, with all citizens having access to quality education, healthcare, and sanitation. The economy will be thriving and sustainable, promoting inclusive growth. India will be a leader in environmental protection, having transitioned to a green economy and fostering a harmonious relationship with nature. On the global stage, India will be recognized as a responsible leader, actively contributing to the international development agenda.

**"Vision 2047: Aligning SDGs with India's Development Aspirations"** seeks to foster a constructive dialogue among academicians and stakeholders to chart a sustainable and inclusive path towards Vision 2047. By exploring the alignment of India's development aspirations with the SDGs, the seminar aims to facilitate knowledge exchange, collaboration, and innovation to accelerate India's progress towards achieving the global goals by 2030 and beyond.

## Subthemes of the Seminar

- Socio-Economic Disparities:** Addressing inequalities in income, education, and healthcare.
- Policy Implementation:** Case studies on effective strategies for SDG realization in India.
- Technological Innovations:** Role of AI, IoT, and block chain in sustainable development.
- Corporate Sustainability:** CSR initiatives driving SDG goals in the private sector.
- Universal Healthcare:** Challenges and strategies for achieving healthcare for all.
- Quality Education:** Innovations in curriculum, teaching methods, and skill development.
- Women's Empowerment:** Initiatives promoting gender equality and women's leadership.
- Climate Change Mitigation:** India's efforts in renewable energy and carbon reduction.
- Water Management:** Innovative solutions for water conservation and sanitation.
- Rural Development Models:** Success stories and challenges in agrarian reforms.
- SDGs for Vibrant Rural India:** Modernization & Livelihood Creation.
- Smart Cities:** Sustainable urban planning and technology-driven solutions.
- Financial Inclusion:** Banking and financial services for the marginalized.
- Youth Engagement:** Youth-led initiatives and entrepreneurship for SDGs.
- Cultural Preservation:** Sustainable tourism and heritage conservation.
- Disaster Preparedness:** Strategies for resilience against natural calamities.
- Ethical Governance:** Transparency and accountability in public administration.
- Civil Society & NGOs:** Grassroots Initiatives & Holding Stakeholders Accountable.
- Monitoring SDG Progress:** Data-driven insights and M&E frameworks.
- Circular Economy:** Waste management and sustainable consumption.
- Social Entrepreneurship:** Business models addressing social and environmental challenges.
- India's Role in Global SDGs:** Sharing Best Practices & Leadership.
- Any other related topic.**
