**5202**

**SEDIMENTOLOGY AND  
GEOMORPHOLOGY**

Paper-G-304

Time Allowed : 3 Hours]

[Maximum Marks : 75

**Note** : Attempt **five** questions in all, selecting **one** question from each Unit. Question No. **1** is compulsory. All questions carry equal marks.

**Compulsory Question**

1. Write notes on the following :

- (a) Sandstone.                      (b) Conglomerate.
- (c) Cross bedding.

**UNIT-I**

2. Discuss the different types of ripple marks and their significance.

3. Write short notes on any **two** of the following :

- (a) Porosity.                      (b) Bouma cycle.
- (c) Sole marks.

**UNIT-II**

4. Discuss the sedimentological characteristics of glacial depositional environment.

5. Write short notes on any **two** of the following :

- (a) Ortho-and para-Conglomerates.
- (b) Paleo-current analysis.
- (c) Lithic wacke

**UNIT-III**

6. Describe the geological utility of studying about paleochannels of the Saraswati River system.

7. Write short notes on any **two** of the following :

- (a) Stream length gradient index and its utility.
- (b) Heavy mineral analysis.
- (c) Clay mineral analysis.

**UNIT-IV**

8. Describe the peneplanation cycle concept in geomorphology.

9. Write short notes on any **two** of the following :

- (a) Drainage Patterns.
- (b) Concepts in geomorphology.
- (c) Utility of geomorphology in Dam site selection process
